PASLODE REPAIRS

We regret we have had some problems
regarding our turnaround time and fixing
Paslode gun's etc.

Unfortunately, the person in charge of
repairs we found was not up the standard
required. And it was only after a number
of guns were returned un-satisfactory, we
had to investigate. May we apologize
profusely to any customer affected by
this. We will endeavor to make good any
machine, which any customer finds to be
sub-standard. In the form of a service etc.

Please contact me on the following
number, if you would like me to
investigate your fault and if your machine
is not repaired as you expected within the
past 6 weeks. 051-376187 EOGHAN
