Happy Valentines Day, to you all. That is a reminder in case you forgot. Cards, Roses, Chocolates, Dinner, Night on the Town or a Romantic weekend away. Who cares how much it is. Just do it. It is after all only once a year. But, so is Christmas only "once a year", so is Easter, So are all these other little "Once a year events", that no demand is placed on you to buy anything expensive or the biggest that the shop has. But dare you come home with anything less. And PS - all is not forgiven. The other half will remember that you forgot the previous year and you will be reminded every day, every argument/discussion, every time an add comes on the TV, "ah is'nt that lovely, I would have loved one of those!!!!!!!!!!!!!!, if you had remembered ?", Every -opportunity that comes about, you will be reminded. So there is no excuse. The day in question is the 14th, February. It starts at 00.00 hours on the 14th and finishes at 24.00 on the 14th. Enough said about that. Just don't forget. A good idea is to buy plastic roses, so u can take them out every year and you are saving the environment.

New products which have taken off well are the plasterers beading and timber frame strap's, etc. Please contact the REPS for more details. There are various offers and special rates for large users.

Bosch have recently launched a 36V, Cordless Battery Drill. We had this on demo at the November show and sales of this based on the demonstrations went very well. Certainly one to compete in the 36V, category.

WWW.HWFASTENERS.COM

Don't forget to log on to see the latest in special offers on this site. We are constantly updating and adding new items to the special offer section. Plus get all the latest news and current events on upcoming trade shows. Etc. We intend to have the full list of CAT-erpillar, Dewalt, Dickies, Rockfall and many more brands available on the site in the next few weeks. Discounts offered on printed vouchers from the site.

DeWalt - Special Offer While Stocks Last. DC-988KA - 18V, Combi Hammer Drill. Normally, € 440.00 + VAT (3 batteries) While Stocks last we are offering them at € 325.00 + VAT (2 batteries)

We may experience some disruption to service over the next few weeks due to a new mezzanine floor being put in place. We are expecting delivery middle of next week and it should take 3 days to complete. The "FONTANA" mezzanine floor is being supplied locally by Tycor Environmental Ltd., Waterford. 051-311179. This should help, free up some floor space for us.

The accounts dept., has kindly asked me to remind all credit account customers that the terms are strictly 30 Days end of month of invoice. We have a few 60 days accounts, but only by request and a review of the trading on those accounts. Customers with 60 day account's, will have a letter signed by credit control to agree to the terms. If you are unsure of your account terms please contact Geraldine to confirm.

Please Also Note:

It is standard policy to issue letters requesting payment following phone calls.

These letters vary in intensity from nice and polite to 7 day notices prior to proceedings. Each letter is sent in order, so by the time a 7 day notice is issued, other letter's would have been sent reminding customers of their liability to pay their account. This is a system put in place a number of years ago and it is also the same system used by several companies in Ireland and abroad.

Unfortunately, if you are in receipt of one of these letters, please contact us to clear up any misunderstanding.

It is costly and time consuming to send them out and if the truth be known, we would prefer not to but we have to be entitled to ask and collect monies due us in a timely and professional manner.

Also, standard policy is to reserve the right to put an account on hold until payment is received without notice or prejudice. QED>

PAGE ?

“Paslode” rates are falling due to the number of distributors now in Ireland.

Great news for customers and end users.

As always HW Fasteners Ltd., try to remain at the forefront by offering an alternative approach to price selling and still giving you value for money. The “buy 40 get one free”, on boxes of nails has worked well for customers. Every little counts.

Contact Garvan or Vincent for more details.

Another excellent value for money incentive is on purchase of a new Paslode gun. (end-user only).

We offer:

a) the 1st service and clean FOC. (worth €70.00).

b) use of a loan gun while in for repair, so you don't lose out on hiring a gun (€50.00), to finish the job.

c) Garvan and Vincent are certified by ITW to offer full on-site training in the safe use and care of all Paslode, Pulsa, Spit and Ramset products.

d) We can offer a cleaning video free of charge, to any would be DIY enthusiasts who are Price Vs Repair cost conscious and want to keep their machine in good working order.

As main agents we can offer more in terms of service, technical back-up and competitive rates on demand and on request. Plus, we can still match any rates put to us by a next nearest competitor, all you have to do is ask. Quantity discount apply and no price is cast in stone.

Electricians :Plasterers :Dry Lining :Plumbing

What have they all got in common ?. they can take advantage of the SPIT Pulsa Gas Nail System. Simply log on to www.itwcp.ie, to learn more. You will be genuinely impressed.

SPIT have paved the way for others to follow in the Gas technology market and so far the reports coming in are that there is nothing to compare to the original. Contact us for demo, catalogues, training, applications, rates, offers etc.

TRADE IN YOUR OLD PULSA 1000-MODEL FOR A NEW PULSA-700 FOR ONLY € 350.00 +VAT. (With purchase min. qty of 5000 nails).

TRADE IN YOUR HILTI MODEL FOR A NEW PULSA-700 FOR ONLY € 250.00. + VAT

If you want the best, buy the best. “SPIT PULSA”

In conjunction with ITW, we will be hosting a Pulsa demonstration day, (date to be confirmed), probably late march. This will be a fantastic opportunity to see first hand the power behind the SPIT Pulsa Gas Technology and the reasons why it is far superior to other brands on the market. Pulsa-700 can be used to fix into brick, block, concrete, timber and steel.

A Paslode gun is a carpenters right hand. A Pulsa-700, is fast becoming an tradesman's right hand.

www.helpmebuildandrenovate.com

has seen huge growth in the number of hits to their site on a monthly basis. To advertise on this site, contact EKAM Solutions on 051-875593.

The easy way to advertise and have a web presence at the same time, with potential customers seeing your name under a unique online trade directory.

We are planning the third DeWalt trade show for sometime in April. Again dates to be advised. This will be on a medium scale but we will still be offering some fantastic rates and free goods with items purchased. Also, come along and see some of the new products launched by DeWalt this year. Their Heavy Duty Drilling machines and Breakers are “BREAKING” new ground in the Heavy Duty market. Now at last you have a viable alternative to the Red Machine with White Writing. Bring along your machine and do a comparison with the DeWalt one. If you like it we will give you money to buy it on a trade in with you machine. How bad.

HW Fasteners Ltd., are celebrating 25 years in business this year. We would not have made it this far without your Support, Criticism and Loyalty. THANK YOU.

Keep an eye on the website to find links to various spot prizes. When u find them, email us and u win that prize. (from the 20th feb)

Limited to one prize per company

Thank You and Happy Valentines Day To All. Text Me For Your Special Kiss And Card.
