October 2005

Fax:051-350050

Sorry, the newsletters did not go with the invoices last month. So you will have double reading this month. I have included the October one, here as well. If you missed any of the previous months newsletters. You can see them on the www.hwfasteners.com, website.

We are holding a second DeWalt trade show on Friday November 18th.

Thank you, to all who made the last one a great success.

Most of the items on offer will be similar prices to the last show. So if any of your friends missed out, you can tell them it's back. The Theme This Time, (4 T's), is "BUY MORE, GET MORE". Simply put the greater value you spend, the more free product you will get. (see below).

Also, as a one off, we will levy the new WEEE charges ourselves.

So the price you see is the price you pay.

Will, WE pay the WEEE. ?

YES/ QUI WE WILL.

Example :

Spend € 375 get 115mm grinder FOC

Spend € 600 get DC727 14.4V Drill Driver FOC

Spend € 1200 get DC984 14.4V Hammer Drill FOC

Spend € 2250 get DW 707 Mitre Saw FOC

Also, on show the new BOSCH 36V SDS+ Hammer Drill. Demand for this machine is so great that we could only manage to get a demo., model on loan for the day. Still it is your opportunity to "TEST DRIVE", this new innovative piece of machinery.

Go to our website to see the breakdown of power tools on offer. If we don't have a power tool of your choice on the site or on the day, we will quote you trade show rates, there and then.

Note : You can still order power tool's at the trade show rates with the same offers, until 30th November 2005.

Eddie Hobbs are you reading this. A number of months ago a directive was passed onto manufacturers of electrical & electronic equipment to pay a fee towards a recycling fund, once machines have come past their use-by date. This was a manufacturers charge and we all were told that the end user would not be liable to pay this.

I have to be careful here. But the bottom line is, it has been passed down from manufacturer to agent, from agent to distributor, from distributor to retail outlet, and from retail outlet to end-user. How did't we see that coming. Lol.

I bought a TV from argos last weekend and under the European Commission's Directive , they had to charge me an extra TENNER. Stealth tax on the end-user or what.

So, unfortunately the bottom-line is that for every power tool sold, we have to charge a fee, which goes towards making sure the EU ministers, have nice plush chairs, tax free purchases and free flights.

The charges are as follows –

Battery chargers & batteries € 1.00

Torches - € 2.00

Power, Gas & Air Drills & Tools € 3.00

Further information can also be obtained from the government body set up to deal with this legislation – www.weeeregister.ie

Or contact Eddie Hobbs - www.eddiehobbs.com

Sorry but the cost of diesel has remained static, despite national vested anger why it has remained so high. We have all seen it jump by over 0.20c per litre in the past few months.

Therefore it is unavoidable that we have to increase our charge by 0.40c, to €3.90.

Diesel bills alone have jumped from € 2000 per month to €2500. We like to think that our delivery charges are low compared to other's, but only you can be the judge of that. We hope it is little to pay for a good service. Please let me know your comments.

Are you getting your newsletter. ?

Please don't deprive someone of this newsletter. That is like going up to the bar, buying a package of Bacon Fries and not asking if anyone wants one.

We have plenty of them here to send out. Is there someone in your workplace who may want a copy. ? Is there someone in the canteen who looks bored and you have often wondered how you could liven up their day. ?. Is there someone you detest and you though how can I "get back at them". Well then ask us to send them a copy.

NOTE : Customers who purchase their Paslode Guns from HW Fasteners Ltd., benefit from our complimentary "Free Gun Loan" Policy, during maintenance or repair of their own.

NOTE: This policy does not cover guns "NOT PURCHASED" here or "FREE OF CHARGE", as part of an offer. We do however have loan guns available @€50.00 + VAT, per week or part, thereof.

HW Fasteners Ltd. were delighted to be able to sponsor a local secondary school with a selection of DeWalt Top Of The Range Power Tools. Saint Pauls School, on Paddy Browns Road in Waterford took delivery of a Chopsaw, Mitre Saw, 14V Hammer Drill and a Router just in time for the start of the new term. Both teachers and pupils got stuck in straight away to use the machines. It is our intention to provide support to some of the local schools in the future, so the

kids leaving school will have mastered some of the current onsite Power Tools.

Ps . I would like to thank Martin Collins and Bill Mullen and others at, Saint Pauls Secondary school for organising a photo shoot with the DeWalt stuff for our website.

Also a big HELLO, to some of my former teachers who I had great pleasure in meeting again, (whilst not in detention) and who made me feel very welcome there. It was great to see ye all again. The names are as I remember them.

Mrs Cullen, Mrs Collins(Im Still at the Rugby), Mrs Kavanagh (Danke Schon), Mrs Dempsey(Merci), Mr O'Connor(I have two chisels which I must return), Miss O'Shea(Go Raibh Maith Agat, Mr D. O'Brien,

Mr + Mrs Bates, Mr Casey(frightened the life out of us all), Laura Dunne(for my musical talents), Marie Power(the class year favourite), and the late and specially remembered Tojo. And anyone else, I don't have here but have in my heart.

HOT OFF THE PRESS

Elaine, do you remember Elaine. The one who broke her leg. It is with great joy, we can announce, that she gave birth on Tuesday night, and also with great delight, we can say that MOMMY & BABY are well and doing fine and healthy. Congratulations to Elaine & Cathal and hurry up back to work. WE all miss you.

Enough is enough. I'm finished. Happy Halloween. Bye.
